

Act report

Introduction

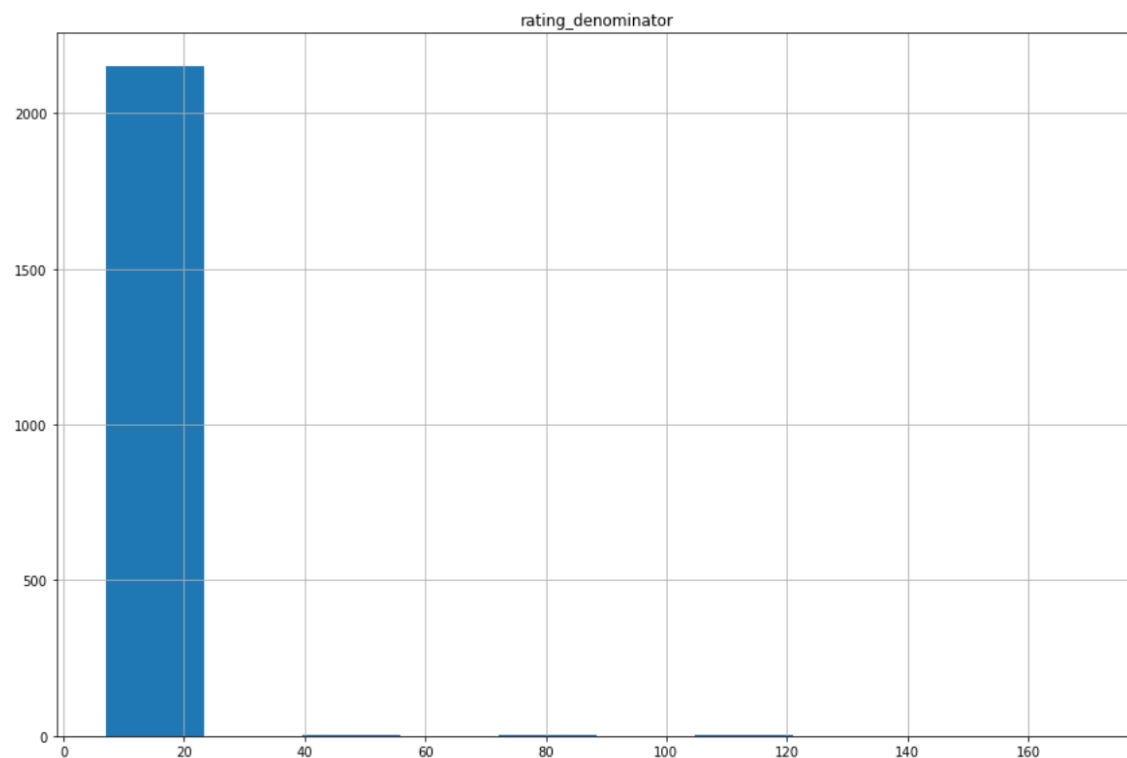

WeRateDogs is one of the most iconic Twitter user he managed to get more than nine and half million followers on Twitter and still going up he started on November 2015 and still going, he is very famous in the dog owners community he rates doges in unusual way usually the rates are between 1 to 10 however he rates in different way almost all of his ratings are above 10 in his eyes every dog is 10 and above like 11 out of 10 or 12 out of 10, etc. He is also famous for his funny comments on the images that the people provided to him of their dogs also sometimes he goes out of his way and start rating animals other than dogs and usually gives low score and still funny comments

Insights:

- 1- The rating that he provides is usually very high. He has an average of 12.84 out of 10 which is normal of his rating habit of giving above 10 for most of the doges.
- 2- The images that he gets from the people he is not accurate on prediction of what breed or what animal in the image.
- 3- WeRateDogs mostly use an iphone to tweet in Twitter and some time use different devices to tweet like Vine, Web Client, and TweetDeck.

Visualization:

To visualize the denominator of his ratings we use hist function in pandas

From the visualization above we can see he mostly rate out of 10 and rarely gives a ratings other that 10
